

## Legal Services

Millions of Americans spend their lives building a legacy, but because they never created a will, the state gets to decide how their assets will be distributed. We have selected Ceridian LifeWorks' legal services to be made available to active employees, their spouses and dependents in conjunction with our group life insurance programs. These services can help to reduce the worry and stress of employees and their families, and allow employees to focus their attention at work and home. Providing employees the comfort of knowing their estate will pass to the right people, will preparation and legal services are another way to “get more out of life.”

### Legal services include:

- **Will services** — drafting of simple wills and other estate planning documents — online or via paper questionnaire — with the assistance of an attorney in the employee's state of residence.
- **Power-of-Attorney services** — phone consultation with an attorney regarding powers of attorney and drafting of simple power of attorney for non health care issues. State-specific advance directive forms and instructions for health care issues are also available on-line.
- **Document review** — phone consultation with an attorney regarding legal documents (up to four pages), including Living Wills.
- **Expert assistance** — from a network of over 22,000 attorneys nationwide.
- **30-minute consultation** — initial consultation in person or by phone at no cost to employees or their families for each unique legal issue.
- **Access to tools** — for organizing documents and directives for next of kin.
